

# Illinois Licensure Testing System

## Interpreting Your ILTS Score Report

Your ILTS score report provides your results and a description of your performance for the test taken on the test date.

### 1 Status

If you received a scaled total test score of 240 or above, you will receive a "Pass" status. If you received a scaled total test score below 240, you will receive a "Did not pass" status.

### 2 Scaled Total Test Score

Your scaled total test score is reported on a scale from 100 to 300. Your scaled total test score is based on your performance on the entire test: the number of multiple-choice questions answered correctly combined with any constructed-response assignment score(s).

### 3 Subarea Score

Your subarea scores are reported on a scale from 100 to 300 and provide feedback on your performance by subarea. This descriptive-only information may help you assess your strengths and weaknesses.

#### Multiple-Choice Information

Performance on the multiple-choice section is based on the number of questions answered correctly; points are not "lost" for wrong answers. Each multiple-choice question counts the same toward the total test score.

#### Constructed-Response Information

Scorers judge the overall effectiveness of each response using a score scale and a set of performance characteristics. Refer to your score report backer and the study guide for more information.

### 4 Performance Graph

The performance graph illustrates each subarea score on a scale from 100 to 300.

#### Passing Score

To pass this test, you must obtain a scaled total test score of 240 or above.

### 5 Reporting

Your scores are automatically reported to the ISBE. The Illinois educator preparation program(s) listed receive your scores as you indicated during registration.
