

Illinois Licensure Testing System

Interpreting Your ILTS Score Report

Your ILTS score report provides your results and a description of your performance for the test taken on the test date.

1 Reporting

Your scores are automatically reported to the ISBE. The Illinois educator preparation program(s) listed receive your scores as you indicated during registration.

2 Scaled Total Test Score

Your scaled total test score is reported on a scale from 100 to 300. Your scaled total test score is based on your performance on the entire test: the number of multiple-choice questions answered correctly combined with any constructed-response assignment score(s).

3 Status

If you received a scaled total test score of 240 or above, you will receive a "Pass" status. If you received a scaled total test score below 240, you will receive a "Did not pass" status. To pass the entire test, you must pass each subtest.

4 Performance Graph

The performance graph illustrates each subarea score on a scale from 100 to 300.

Passing Score

To pass each subtest, you must obtain a scaled total test score of 240 or above.

5 Subtest History

This section lists your status of each subtest and the date you passed the subtest, if applicable. Each subtest you have not yet taken is noted as "Not Taken."

6 Subarea Score (Subarea Scaled Score)

Your subarea scores are reported on a scale from 100 to 300 and provide feedback on your performance by subarea. This descriptive-only information may help you assess your strengths and weaknesses.

Multiple-Choice Information

Performance on the multiple-choice section is based on the number of questions answered correctly; points are not "lost" for wrong answers. Each multiple-choice question counts the same toward the total test score.

Constructed-Response Information

Scorers judge the overall effectiveness of each response using a score scale and a set of performance characteristics. Refer to your score report backer and the study guide for more information.

7 Performance Indicators

Performance indicators provide information on your performance on each constructed-response assignment and may help you assess your strengths and weaknesses.
